

Project Geologist/Environmental Scientist/Project Manager

Location: Indianapolis, IN

Company: AEC, LLC

Job Type: Full-Time

About the Position:

AEC, LLC is currently seeking a qualified and experienced Professional Geologist or Environmental Scientist to join our Indianapolis, Indiana office as a Project Manager. The ideal candidate will possess at least 3 years of relevant experience in soil and groundwater investigation, underground storage tank closures, and Phase I ESAs. Applicants must have a bachelor degree in geology, environmental science, or similar earth science or equivalent work experience. Professional licensure or the desire/ability to become licensed is beneficial.

Key Responsibilities:

- Plan, coordinate, and oversee subsurface soil and groundwater investigations and remediation activities
- Knowledge of Indiana environmental regulations (e.g., LUST program)
- Perform technical data interpretation and prepare high-quality technical reports
- Conduct field work and travel to project sites within Indiana

Compensation & Benefits:

We offer a competitive compensation package that includes:

- Competitive base salary (commensurate with experience)
- Paid time off (PTO)
- Health, dental, and vision insurance
- Disability and life insurance
- SIMPLE IRA retirement plan
- Career development support and growth opportunities
- A collaborative and team-focused work environment

To Apply:

Please submit your resume and cover letter detailing your qualifications and interest in the position to hr@creekrun.com.
